## Course Description

This course demonstrates how computers can be used as a tool and a medium in the domain of the arts. The first half of this course focuses on the basics of Adobe Photoshop including photo manipulation, keyboard shortcuts, and an introduction to gif making. The second half focuses on Adobe Illustrator and an introduction to paper layout and typography. The objective of the second half of class is to understand Illustrator well enough to create and design a new logo and a new music album cover.
