**UCEAP Semester Units**

3.00

## Course Description

In this course, students investigate how music influences our thoughts, feelings, and actions. Students study foundational methods, concepts, and theories of music psychology and critically debate empirical studies. Students get an overview of the wide range of topics in the subject, and they carry out independent literature research on a music psychological issue, to create experimental designs and to be able to assess experiments.

## Language(s) of Instruction

German
