

# COURSE DETAIL

## ANATOMY AND PHYSIOLOGY

**Country**

Mexico

**Host Institution**

National Autonomous University of Mexico

**Program(s)**

National Autonomous University of Mexico

**UCEAP Course Level**

Upper Division

**UCEAP Subject Area(s)**

Health Sciences

**UCEAP Course Number**

106

**UCEAP Course Suffix****UCEAP Official Title**

ANATOMY AND PHYSIOLOGY

**UCEAP Transcript Title**

ANATOMY&PHYSIOLOGY

**UCEAP Quarter Units**

6.00

**UCEAP Semester Units**

4.00

**Course Description**

This course provides a study of the generalities of intraspecific human anatomy and physiology in order to contrast the morphological changes that occurred during the evolutionary process of the human species, and to identify human remains recovered within archaeological, historical or forensic contexts. It reviews basic cell biology and proceeds to cover all the major organ systems of the human body, including endocrinology, reproductive system, nervous system, muscles, cardiovascular physiology, respiratory physiology, renal physiology and the gastrointestinal system.

**Language(s) of Instruction**

Spanish

**Host Institution Course Number**

2648

**Host Institution Course Title**

ANATOMY AND PHYSIOLOGY

**Host Institution Campus****Host Institution Faculty****Host Institution Degree****Host Institution Department**

Facultad de Ciencias Politicas y Sociales
