5.00

**UCEAP Semester Units**

3.30

### **Course Description**

This course provides an overarching view of how psychiatric illnesses as well as physical, intellectual, and developmental disabilities are situated within the global context, with a particular focus on low- and middle-income countries. Topics covered include barriers and access to care; institutionalization and asylums; cultural and social determinants of mental health; trauma and recovery; mental health promotion, education, and literacy; and some basic psychiatric epidemiology.
