## BIOLOGY INTERNSHIP

**Country**

Sweden

**Host Institution**

Lund University

**Program(s)**

Lund University

**UCEAP Course Level**

Upper Division

**UCEAP Subject Area(s)**

Biological Sciences

**UCEAP Course Number**

187

**UCEAP Course Suffix****UCEAP Official Title**

BIOLOGY INTERNSHIP

**UCEAP Transcript Title**

BIOLOGY INTERNSHIP

**UCEAP Quarter Units**

6.00

**UCEAP Semester Units**

4.00

**Course Description**

The main aim of the internship is that the student gains general work experience, practical training in biology-related work, and creates contacts with potential future employers. Students get to know a workplace that specializes in research or biological applications and they are expected to participate in the every-day routines of the workplace. A supervisor at the workplace is responsible for organizing the student's work during the work period. Daily work should be planned in advance together with the supervisor. The workplace must be approved by the course leader. By the end of the course, the work is reported by a written report as well as an oral presentation.

**Language(s) of Instruction**

English
