

## COURSE DETAIL

### ELECTROCHEMICAL ENGINEERING AND POWER SOURCES

**Country**

United Kingdom - England

**Host Institution**

University College London

**Program(s)**

English Universities, University College London

**UCEAP Course Level**

Upper Division

**UCEAP Subject Area(s)**

Chemical Engineering

**UCEAP Course Number**

117

**UCEAP Course Suffix****UCEAP Official Title**

ELECTROCHEMICAL ENGINEERING AND POWER SOURCES

**UCEAP Transcript Title**

ENGR&POWER SOURCES

**UCEAP Quarter Units**

6.00

**UCEAP Semester Units**

4.00

**Course Description**

This course develops the fundamental concepts of electrochemical engineering and explores their application to real-world problems in chemical processing and electrochemical power sources. It provides an opportunity for students to gain theoretical, practical, and techno-economic knowledge of electrochemical technology.

**Language(s) of Instruction**

English

**Host Institution Course Number**

CENG0028

**Host Institution Course Title**

ELECTROCHEMICAL ENGINEERING AND POWER SOURCES

**Host Institution Campus**

University College London

**Host Institution Faculty****Host Institution Degree****Host Institution Department**

Chemical Engineering
