# **COURSE DETAIL**

#### **BIODIVERSITY IN MANAGED FORESTS**

## **Country**

Denmark

#### **Host Institution**

University of Copenhagen

## Program(s)

University of Copenhagen

### **UCEAP Course Level**

**Upper Division** 

## **UCEAP Subject Area(s)**

Geography Agricultural Sciences

### **UCEAP Course Number**

119

#### **UCEAP Course Suffix**

#### **UCEAP Official Title**

**BIODIVERSITY IN MANAGED FORESTS** 

## **UCEAP Transcript Title**

**BIODIVERSITY/FOREST** 

## **UCEAP Quarter Units**

6.00

#### **UCEAP Semester Units**

4.00

## **Course Description**

The course discusses how different forest management practices and intensities influence biodiversity. It presents methods on how to assess and evaluate impact of forest management actions on flora and fauna diversity and discusses possible trade-offs between forest wood production and biodiversity.

## Language(s) of Instruction

English

#### **Host Institution Course Number**
