# **COURSE DETAIL**

# **PARTICLE PHYSICS**

### **Country**

United Kingdom - England

#### **Host Institution**

King's College London

### Program(s)

King's College London

#### **UCEAP Course Level**

**Upper Division** 

### **UCEAP Subject Area(s)**

**Physics** 

#### **UCEAP Course Number**

118

#### **UCEAP Course Suffix**

#### **UCEAP Official Title**

PARTICLE PHYSICS

### **UCEAP Transcript Title**

**PARTICLE PHYSICS** 

## **UCEAP Quarter Units**

6.00

#### **UCEAP Semester Units**

4.00

### **Course Description**

The aim of this introductory course in Particle Physics is to develop a basic understanding of the Standard Model of Particle Physics and how it has been tested experimentally. Students learn the basic structure of the Standard Model in terms of symmetry and how this leads to definite predictions for the interactions and properties of elementary particles which can be tested experimentally.

#### Language(s) of Instruction

English

#### **Host Institution Course Number**

6CCP3241

#### **Host Institution Course Title**

PARTICLE PHYSICS

#### **Host Institution Campus**

King's College London/ Strand Campus

# **Host Institution Faculty**

**Host Institution Degree** 

# **Host Institution Department**
