COURSE DETAIL

FUNCTIONAL PROGRAMMING

Country
United Kingdom - England

Host Institution
University College London

Program(s)
University College London

UCEAP Course Level
Upper Division

UCEAP Subject Area(s)
Computer Science

UCEAP Course Number
118

UCEAP Course Suffix

UCEAP Official Title
FUNCTIONAL PROGRAMMING

UCEAP Transcript Title
FUNCTNL PROGRAMMING

UCEAP Quarter Units
6.00

UCEAP Semester Units
4.00

Course Description
This course provides an overview of functional programming, including both the functional programming language Miranda and functional language implementation techniques such as graph reduction and garbage collection. The course is suitable for advanced undergraduates and conversion MSc students; no prior experience of functional programming is assumed, but students must have prior programming experience in a general purpose programming language.

Language(s) of Instruction
English
