UCEAP Quarter Units 6.00
UCEAP Semester Units 4.00

Course Description

This course explores key philosophical questions relating to youth, young people, and children; considering their practical relevance. It does so by starting from the personal experiences of course members along with contrasting case studies of diverse life courses. What is it to be a child or a young person? How have these categories been applied to us, and by us, in our own lives, and how have they been applied elsewhere?

Language(s) of Instruction
English
