# **COURSE DETAIL**

#### ECOSYSTEMS, CLIMATE AND CLIMATE CHANGE

**Country** Denmark

**Host Institution** University of Copenhagen

**Program(s)** University of Copenhagen

UCEAP Course Level Upper Division

UCEAP Subject Area(s) Geography Environmental Studies Earth & Space Sciences

**UCEAP Course Number** 112

**UCEAP Course Suffix** 

**UCEAP Official Title** ECOSYSTEMS, CLIMATE AND CLIMATE CHANGE

UCEAP Transcript Title ECOSYSTEMS&CLIMATE

**UCEAP Quarter Units** 6.00

**UCEAP Semester Units** 

4.00

## **Course Description**

The focus of the course is on the relations between terrestrial ecosystems and global climate systems. Seen in a historical and present perspective as well as on a temporal and spatial scale, the interactions between climate and ecosystem are put in perspective of the ongoing and future climate change. Further, the course explain how models and data bases are used to develop future climate scenarios and reconstruction of previous climate conditions, as well as the anthropogenic role in the present changes in climate.

Language(s) of Instruction English

Host Institution Course Number NIGK17013U

Host Institution Course Title ECOSYSTEMS, CLIMATE AND CLIMATE CHANGE
