ANTHROPOLOGY, NATURE, AND ENVIRONMENT

**UCEAP Transcript Title**

ANTH NATURE & ENV

**UCEAP Quarter Units**

4.50

**UCEAP Semester Units**

3.00

## **Course Description**

This course explores the relationship between human structures and environments where they are involved. It analyzes how people both impact and are affected by their environments. Human relationships are dependent on the negotiation of space and location over time. The course follows many theories ranging from environmental history and justice to political ecology. It studies many ethnographies that range from resource politics to environmental contamination and human migration cross ecosystems.
