UCEAP Course Suffix
UCEAP Official Title THE ORGANISMS THAT CHANGED THE HISTORY (II)
UCEAP Transcript Title ORGANISMS HISTORY
UCEAP Quarter Units 3.00
UCEAP Semester Units 2.00

Course Description

The existence of many species depends on the survival of others. Humans are no exception. In the past 14,000 years, many organisms have left indelible marks and exercised on human history. The roles that individual species play in providing food, unique medical compounds, air, and water purification are critical to our health and survival. This course will provide sufficient background of 12 selected organisms and discuss their impacts on our daily life and culture. Field trips to Taipei Zoo and/or Botanical Garden will also be arranged.
