| **UCEAP Transcript Title**<br>MODERN ECON ANALYS |
| **UCEAP Quarter Units**<br>8.00 |
| **UCEAP Semester Units**<br>5.30 |

**Course Description**

The course examines some of the important recent developments in economics, focusing mainly, but not exclusively, on key contributions since 1950, especially those whose authors were awarded the Nobel Prize in Economic Science. Through an examination of the original as well as more modern academic literature, it will look at analytical concepts and techniques that were once novel but are now widely accepted. The course also touches on the historical context in which economics evolved.

**Language(s) of Instruction**
English

**Host Institution Course Number**
ECNM10096

**Host Institution Course Title**
KEY DEVELOPMENTS IN MODERN ECONOMIC ANALYSIS
