

## COURSE DETAIL

### IMMUNOLOGY

**Country**

Canada

**Host Institution**

University of British Columbia

**Program(s)**

University of British Columbia

**UCEAP Course Level**

Upper Division

**UCEAP Subject Area(s)**

Biological Sciences

**UCEAP Course Number**

138

**UCEAP Course Suffix****UCEAP Official Title**

IMMUNOLOGY

**UCEAP Transcript Title**

IMMUNOLOGY

**UCEAP Quarter Units**

6.00

**UCEAP Semester Units**

4.00

## Course Description

This course discusses mechanisms of innate and adaptive immune responses. Topics include: hematopoiesis; development of T and B lymphocytes; leukocyte migration; antigen processing/presentation and the major histocompatibility complex; immune responses against pathogens; diseases associated with aberrant immune responses.

## Language(s) of Instruction

English

## Host Institution Course Number

MICB 302

## Host Institution Course Title

IMMUNOLOGY

## Host Institution Campus

Vancouver

## Host Institution Faculty

Faculty of Science

## Host Institution Degree

Bachelor of Science

## Host Institution Department

Microbiology & Immunology
