Course Description

This course is designed to connect school students in remote areas with the international and local NTU students in Taiwan. Students demonstrate their commitment to the rural community through service and learning opportunities. Activities range from distance interactions through webcam and school visits located in Keelung City, Chaiyi, Nantou, Taitung, and Kaohsiung areas. By going to one of the 7 primary or secondary schools located at the countryside in Taiwan, students are given the opportunity to gain an in-depth understanding of Taiwanese culture and share their own culture. At the same time, teachers and students in Taiwan will acknowledge their own community values and opportunities for exchange from a global and co-existing point of view. Students participate in volunteer activity via webcam, volunteer training with reflective learning and school visit and teaching. Assessment: presentation and final report.
