Course Description
The internship is accompanied by a course which prepares students to excel in their future academic or professional careers all while taking in Israel's unique entrepreneurial economy and Technion's penchant for innovation. It provides an opportunity for students to gain valuable work experience in a particular career sector, putting into perspective connections between theory and the application of engineering and/or scientific principles. Students develop skills and broaden perspectives through immersion in local businesses and engineering practices. The internships are particularly relevant to students with a background in engineering, science, pre-med, and business.
