UCEAP Transcript Title SOCIETY & HEALTH
UCEAP Quarter Units 4.50
UCEAP Semester Units 3.00

Course Description

This course provides an in-depth introduction to the major conceptual frameworks of social determinants of health as well as empirical research examining social factors that influence individuals' health and illness. It also considers how social scientists, epidemiologists, public health experts, and doctors address the social causes of health, illness, death, longevity and health care; and how they use theory to understand them and make causal inferences based on observational or experimental data.
