## Course Description

This course provides a study of the concept of public policy and analyzes the process of related policy research, including the formulation process, implementation, and evaluation, as well as an overview of think tank report writing. The course covers theories and case studies, focusing on the economic and social, ecological, technological and legal fields, to demonstrate how the decision-making management department chooses and formulates effective policy plans in order to solve public problems, achieve public goals, and realize public interests. It also analyzes the motivation of public policy formulation, the process of policy formation, and the effect of implementation, and evaluation of public policies.
