UCEAP Course Number 122
UCEAP Course Suffix
UCEAP Official Title LANDSCAPE ARCHITECTURE APPLICATION
UCEAP Transcript Title LANDSCAPE ARCHITECT
UCEAP Quarter Units 6.00
UCEAP Semester Units 4.00

Course Description
This course introduces students to the tools and materials we use in landform design. Students examine landscape architectural ideas from an initial concept to detailed design and construction. Students learn techniques and knowledge required for understanding and manipulating landforms, reading and producing grading and drainage plans, and modeling using the 3D visualization software. Students choose materials, using and installing them in the landscape, and producing the appropriate technical documentation.

Language(s) of Instruction
English
