## Course Description

This course provides a study of the economic, social, and communal developments of Asia between the 1800's and present day. It examines the primary characteristics of political development in Asian countries, including legal and judicial implications, and explores the effects of urban agglomeration and social changes that occurred in Asian societies. Topics include: economic development in the region; politics and international relations in China, Japan, and the Korean and Indochinese peninsula; human geography; legal development in the region and implications in relations between Asia and Latin America.
