MOLECULAR CELL BIOLOGY

UCEAP Transcript Title

MOLECULAR CELL BIOL

UCEAP Quarter Units

4.50

UCEAP Semester Units

3.00

Course Description

This is an advanced course on cellular structure and function at the molecular level. This course integrates the disciplines of biochemistry, molecular biology, structural biology, and molecular genetics. Research approaches, practical techniques, and problem-based learning are emphasized in this course. Prerequisites in biochemistry, molecular biology or cell biology are highly recommended.

Language(s) of Instruction

Chinese
