UCEAP Course Suffix
UCEAP Official Title FIRST LANGUAGE ACQUISITION
UCEAP Transcript Title 1ST LANG ACQUISITN
UCEAP Quarter Units 4.50
UCEAP Semester Units 3.00

Course Description
This course introduces issues in the study of first language acquisition from a linguistic perspective. The topics covered include universal stages in first language acquisition; examining the child's phonological, lexical, and syntactic development; and language socialization. Major theories of language acquisition and the critical period hypothesis are examined and evaluated. While the primary focus of the course is on monolingual acquisition, issues in the study of children acquiring two first languages simultaneously are also addressed.
