Course Description

In the B2 level, students systematize, consolidate, and expand basic knowledge of lexis and grammar acquired in the basic and lower intermediate level. The development of academic work forms and techniques is becoming increasingly important. Course objectives include the improvement of the active and passive language use through the systematic expansion of the vocabulary as well as a focus on the training of oral and written skills. Further emphasis is given to the development of the language skills in everyday life as well as study-related situations in Germany. The B2 level is split into two courses, the B2.1 course covers the first half of the level and the B2.2 course covers the second half of the level.
