Course Description

This course builds on the first-year sculpture course, and presents basic knowledge for future training and development through fundamental techniques in sculpture. The course is designed as an open workshop that follows the guidelines set out at the beginning of each year. It presents skills in metal work and other construction materials, such as wood carving and stone sculpture. Topics include; conceptual analysis and self expression; three-dimensional space; synthesis of natural shapes; legislation related to health and safety as applied to sculpture; sensitivity to environmental concerns and recycling.
