Course Description
Research Clinics introduce students to academic research by engaging them in ongoing research projects of LUC staff members. Students are invited to participate within various stages of a project, ranging from the set-up or the application for research grants, over the gathering of data and the drafting of findings, to the final polishing of a text and preparing it for publication. Admissions requirements: Academic writing (or equivalent). Other requirements may be in place for specific research projects. These clinics are open to second or third year students only. Students must submit a short motivation paper on why they want to participate in the clinic of their choice.
