Course Description

This course examines the relationships between sexuality and cultural issues in contemporary society. Apart from different sexual orientations and gender issues, it looks into ethical, and social conflicts with sexuality; for example, how sexuality is portrayed in creative social media which, in turn, shapes our perception of sexuality; the root causes of the stigmatization and discrimination of the commercial sex industry and sexually transmitted infections; the significance of sex education and family planning; and, how our legal system in the global community has been changing across time on non-mainstream sexuality and sexual violence.
