Upper Division

UCEAP Subject Area(s)
Geography Archaeology Anthropology

UCEAP Course Number
122

UCEAP Course Suffix
S

UCEAP Official Title
TIMEWALKERS: EARLY HUMANS, STONE TOOLS, AND ENVIRONMENTAL CHANGE

UCEAP Transcript Title
EARLY HUMANS/BRITAN

UCEAP Quarter Units
6.00

UCEAP Semester Units
4.00

Course Description
This course takes students on a journey to discover Britain's Stone Age past. By participating in classroom-based sessions, hands-on activities, museum visits, and field excursions, students learn how archaeologists reconstruct past landscapes and understand the human populations that once inhabited these lost worlds. The course explores the first dispersals of humans across Europe; a remarkable story of survival in unfamiliar landscapes, where the challenges of changing climate, physical barriers, and food and resource availability tested human resilience to its limits. Located at the edge of this ice-age world, Britain uniquely documents these early inhabitants and their social, cultural, and technological development.
