Course Description

The course provides a study of banking and bank management. The course is divided into three parts. The first part of the course introduces the history and current state of the banking industry (structural characteristics). The second part of the course includes banking performance evaluation and analysis, focusing on banking financial statements and value analysis. The third part of the course covers banking business and risk management. Topics include asset-liability management and interest rate risk management, liquidity risk and reserve management, debt management, investment management, capital management, commercial bank credit management, innovative business and off-balance sheet business management, etc. Experts from the banking industry are invited to provide guest lectures.
