UCEAP Transcript Title INTRO TO ECONOMICS
UCEAP Quarter Units 6.00
UCEAP Semester Units 4.00

Course Description
This course introduces the fundamental principles of economics. Initially, students explore micro-economic issues including the behavior of individuals and firms, their interaction in markets, and the role of government. The course then looks at macroeconomics and examines the determinants of aggregate economic variables, such as national income, inflation, the balance of payments, and the relationships between them. The course also introduces mathematical economics, including linear equations, differential calculus, and discounting.

Language(s) of Instruction
English
