UCEAP Semester Units

4.00

Course Description

This course studies global pop in its social, cultural, and political context, with reference to recent writing in ethnomusicology and popular music studies. It examines the global circulation of blues, rock, rap and hip hop; the connection we have with the music of Africa, Latin America, the Middle East, South and East Asia, and how these circulations have been facilitated, or inhibited, by the new media technologies and social movements.
