**UCEAP Semester Units**

4.00

**Course Description**

This course introduces the world of culture through specific examples. It examines the ways in which the cultural sphere produces value and significance for humans in society; introduces different approaches to understanding culture, and explores the influence of the cultural sphere on both political and personal relations; examines questions about visual art, communication, broadcasting, media technology and cyberspace; and examines the ways in which culture is produced, disseminated and consumed, i.e., in specific communities and contexts, and through types of popular culture including exhibitions, film and television, performance, music, and digital culture.
