UCEAP Transcript Title

MATERIALS BIOMED

UCEAP Quarter Units

6.00

UCEAP Semester Units

4.00

Course Description

Biomedical materials have improved healthcare in many ways and continuous developments in this multidisciplinary and rapidly expanding field are expected to lead to breakthrough solutions for many clinical problems. This course covers the science and technology of materials used in biomedical applications and provides students with an understanding of the challenges involved in engineering materials for the repair or replacement of injured, diseased, or malfunction tissues in the human body.
