**GENES & BEHAVIOR** 

## **UCEAP Transcript Title**

**GENES&BEHAVIOR** 

# **UCEAP Quarter Units**

8.00

#### **UCEAP Semester Units**

5.30

## **Course Description**

This course explores the different statistical methodologies for investigating the importance of genetic and environmental influence on behavior, including twin and adoption designs, and DNA studies. This course provides students with a critical understanding of the methods in behavioral genetics, and how these have been used to investigate the roles of genes and environments in creating individual differences in behavioral outcomes.

## Language(s) of Instruction

**English**
