PHILOSOPHY OF SCIENCE FOR CULTURAL INQUIRY
Country Netherlands
Host Institution Utrecht University
Program(s) Utrecht University
UCEAP Course Level Upper Division
UCEAP Subject Area(s) Philosophy
UCEAP Course Number 112
UCEAP Course Suffix
UCEAP Official Title PHILOSOPHY OF SCIENCE FOR CULTURAL INQUIRY
UCEAP Transcript Title PHIL OF SCI CULTR
UCEAP Quarter Units 6.00
UCEAP Semester Units 4.00

Course Description

What is cultural inquiry? How do you approach a cultural object scientifically? How do you generate scientifically-sound and reliable knowledge? In this course, students learn the tools to identify, navigate, and ultimately apply complex, versatile, and cutting-edge philosophies in cultural studies. The course links philosophical perspectives to current social and political themes. Political, organic, economic, and technological environments influence the production of scientific knowledge and that knowledge in turn has effects on its contexts. Students learn to relate positionality as a researcher in a responsible way to contexts and environments and consider the 'ecology' cultural phenomena embedded in them.

Language(s) of Instruction
English
