UCEAP Transcript Title LABOR ECONOMICS
UCEAP Quarter Units 5.50
UCEAP Semester Units 3.70

Course Description
This course in labor economics requires principles in microeconomic theory and econometrics as prerequisites. The course discusses topics including theories of labor market behavior, and summarizing empirical evidence and illustrating the usefulness of the theory for public policy analysis. The first part of the course examines demand and supply in the labor market. The second part of the course explores topics including compensating wage differentials, investment in human capital, and the relationship between productivity and pay.
