Course Description

This course offer a close reading of Locke's An Essay Concerning Human Understanding, with a focus on appreciating the aims and coherence of the work as a whole. Topics specifically addressed may include: Locke's arguments against innate ideas and innate knowledge, the nature of ideas, the primary-secondary quality distinction, our ideas of substance and of natural kinds, personal identity, language and meaning, the nature of knowledge, mathematical knowledge, perceptual knowledge, action and the will, knowledge of moral truths, probable judgment and the nature of probability, and, finally, Locke's contributions to political philosophy and their connection to his metaphysics and epistemology.
