Program(s) Sciences Po Paris
UCEAP Course Level Upper Division
UCEAP Subject Area(s) Political Science Economics
UCEAP Course Number 166
UCEAP Course Suffix
UCEAP Official Title ECONOMETRIC THEORY FOR SURVEYS AND POLICY EVALUATION
UCEAP Transcript Title ECONOMETRIC THEORY
UCEAP Quarter Units 4.50
UCEAP Semester Units 3.00

Course Description

This course provides an introduction to the statistical and econometric theory underlying surveys and counterfactual policy evaluations. Doing so, it sharpens critical appraisal of the very many surveys and policy evaluations found in public discourse, as data-driven evaluations of public policies are becoming commonly used to help societies choose how to organize unemployment insurance, the provisions of health care and education, etc. This course uses mathematical notation and proofs and engages with mathematically formalized material.
