Course Description
This course provides a sociological perspective to understand why national identities matter, how they are formed, and how they influence everyday life. Topics include: perspectives on national identity and how far it matters to people; sociologists' methods and sources for researching national identity; the role of the state in influencing national identity; the impact of globalization and international migration on national identity; how particular places and spaces are related to national identity; the politics of national identity, including "Brexit" and the potential "breakup of Britain;" and the future for national identities.
