Course Description

This course introduces students to the basic concepts and issues in contemporary political economy, with a particular focus on the political economy of the contemporary social democratic state. The course introduces students to the concepts of economic analysis and the relevance of these concepts to the study of government and politics. It provide students with an understanding of the problems of market failure and government failure and provides a scholarly framework to comparatively evaluate these problems. It provides students with a familiarity with a number of classic and key contemporary readings in political economy.
