UCEAP Course Number 143
UCEAP Course Suffix
UCEAP Official Title FINANCIAL ASPECTS OF PROJECT ENGINEERING
UCEAP Transcript Title FINANCE/ENGINEERING
UCEAP Quarter Units 6.00
UCEAP Semester Units 4.00

Course Description
This course deals with all money-related aspects of contracting and project engineering: accountancy, capital, cash flow, organization, planning and monitoring, and financial evaluation of projects. It is aimed at those students who will become tomorrow's project managers and leaders of industry and provides an insight into the structure, management, and financial management techniques used in the construction industry - since most engineers will be involved with construction projects, either as contractors or purchasers.
