Course Description

This course presents, from a comparative perspective, the Basque language: a European language that does not belong to the Indo-European family, in its typology, the history of the language, etc. The linguistic system is compared to the neighboring Romance languages (Catalan, Castilian, French, Occitan) and Latin. The course focuses on the descriptive linguistics of Basque which address the history and sociological aspects of the language, as well as its phonological system, dialect variation and standard, declension and the case system, syntax, ergativity, verbal system, allocutivity, etc. It addresses historical landmarks, synchrony and diachrony, the phonological system and diachronic variants, morphology, the question of number, marking and meaning, inflectional language, agreement (noun phrase and verb), morphosyntax of the noun, the role of word order and postpositions, the verbal system, and lexicon.
