Course Description

The course provides an interdisciplinary overview of Irish society from the Restoration of the Established Church and monarchy in 1660 to Vatican II, c.1960, focusing on social, cultural, and political change, so as to further understanding of the shaping of modern Ireland. The course introduces students to the variety and complexities of the lives of people who lived in Ireland drawing on themes in cultural, political, and historical geographies, and including analysis of class, religion, place, patronage, politics, and territorial organization, the impact of landlordism and landscape transformation, the distribution of secular and religious institutions, and nation-building and state formation.
