Course Description

This course seeks to take a closer look at PRIDE AND PREJUDICE in order to analyze the novel's complexities, its narrative art, its negotiations of ideological problems, and the contextual issues it addresses either directly or indirectly. The course’s attention then shifts to another novel by Jane Austen, MANSFIELD PARK, a book that appears to form the starkest possible contrast to PRIDE AND PREJUDICE but is just as sophisticated, or possibly even more so. The seminar is designed not simply to teach Jane Austen but also to provide a practical guide to literary criticism. There is a strong focus on the nitty-gritty of the business of interpretation. The course therefore digresses frequently from the novels themselves in order to discuss the fundamental problems involved in understanding literary texts.
