OUTDOOR EDUCATION

**UCEAP Quarter Units**

6.00

**UCEAP Semester Units**

4.00

**Course Description**

This course examines the role of natural environments in the development of young Australians. Evidence suggests that time spent in the outdoors provides many psychological benefits for the individual. This course allows pre-service teachers to not only plan learning experiences based on these theories, but also to implement and reflect on these experiences in a natural outdoor setting during a three day camp.
