COURSE DETAIL

ECOHYDROLOGY

Country
Netherlands

Host Institution
Utrecht University

Program(s)
Utrecht University

UCEAP Course Level
Upper Division

UCEAP Subject Area(s)
Geography Environmental Studies

UCEAP Course Number
130

UCEAP Course Suffix

UCEAP Official Title
ECOHYDROLOGY

UCEAP Transcript Title
ECOHYDROLOGY

UCEAP Quarter Units
6.00

UCEAP Semester Units
4.00

Course Description

This course examines interactions of individual plants and plant communities with their abiotic environment, including ground and surface water regimes and biogeochemistry at the local scale. It looks at how these interactions are linked to hydrological processes at the catchment scale and how these interactions can be applied to conserve or restore water-dependent vegetation and habitats at the local level.

Language(s) of Instruction
English
