## ECOHYDROLOGY

**Country**

Netherlands

**Host Institution**

Utrecht University

**Program(s)**

Utrecht University

**UCEAP Course Level**

Upper Division

**UCEAP Subject Area(s)**

Geography Environmental Studies

**UCEAP Course Number**

130

**UCEAP Course Suffix****UCEAP Official Title**

ECOHYDROLOGY

**UCEAP Transcript Title**

ECOHYDROLOGY

**UCEAP Quarter Units**

6.00

**UCEAP Semester Units**

4.00

## Course Description

This course examines interactions of individual plants and plant communities with their abiotic environment, including ground and surface water regimes and biogeochemistry at the local scale. It looks at how these interactions are linked to hydrological processes at the catchment scale and how these interactions can be applied to conserve or restore water-dependent vegetation and habitats at the local level.

### Language(s) of Instruction

English

### Host Institution Course Number

GEO2-2131

### Host Institution Course Title

ECOHYDROLOGY
