

## COURSE DETAIL

### EARTH'S MATERIALS: MINERALS, ROCKS, AND WATER

**Country**

France

**Host Institution**

University of Bordeaux

**Program(s)**

University of Bordeaux

**UCEAP Course Level**

Upper Division

**UCEAP Subject Area(s)**

Earth & Space Sciences

**UCEAP Course Number**

102

**UCEAP Course Suffix****UCEAP Official Title**

EARTH'S MATERIALS: MINERALS, ROCKS, AND WATER

**UCEAP Transcript Title**

EARTHS MATERIALS

**UCEAP Quarter Units**

6.00

**UCEAP Semester Units**

4.00

**Course Description**

In this course students learn how to identify minerals and rocks. The course also covers hydrology and terrestrial resources. Students learn the main rocks of the earth's crust and gain the ability to observe geological objects in order to identify them correctly. Through this course students learn how to recognize, characterize, and analyze in autonomy geological structures and formations (petrology, paleontology, structural geology, geophysics). Students observe and identify geological objects and understand their genesis.

**Language(s) of Instruction**

French
