## Course Description

Film has the complex characteristics of art, entertainment, industry, and science, and is a total medium of expression that conveys ideas and emotions at the same time. In order to properly understand the artificial product of film beyond the level of simple entertainment, it is necessary to learn the basics of film language, film aesthetics, film history, film production, and the film industry. This course introduces a systematic understanding of film media, focusing on how film can give people the kind of aesthetic experience offered by art such as music, art, theater, etc.
