ORAL HISTORY

UCEAP Quarter Units
5.00

UCEAP Semester Units
3.30

Course Description
This course provides a critical analysis of primary sources regarding political violence, often in the forms of written testimonies and oral history, such as interviews and documentaries. It examines the importance and key role of memory in the social construction of history, and the way in which historical documents and survivors' testimonials construct this memory. The course also examines the motives for survivors to document their experience of political violence, as well as motives for society to read and listen to these testimonies.
